## PROFILE

---

Adaptable and globally minded professional with experience in tech start-ups and university leadership. Originally from Peru, I embarked on a new journey at 16 to study in the U.S., stepping beyond my comfort zone. Now based in Montreal, I thrive on challenges, value collaboration, and aim to make a positive impact through innovation, service, and continuous growth in the tech industry.

## EDUCATION

---

### Concordia University | Montreal, QC, Canada

Bachelor of Science in Computer Science, **Co-op** Program

*Sep 2024 - expected graduation 2028*

- **Relevant Coursework:** Data Structures and Algorithms, OOP I & II, System Hardware, and French classes. Consistently engaging in AI/ML, cloud tech, dev workshops, and career panels with industry experts.
- **Societies/Clubs:** CRSportsClub, SoftwareCS, Instep by Enactus, and Hack4Impact Concordia.

### CERTIFICATIONS:

- GitHub Actions Certification by Microsoft

*Issued: Feb 06*

## SKILLS AND QUALIFICATIONS

---

**Programming languages** | Python, Java, JavaScript, Typescript, C, HTML, CSS

**Softwares/Programs** | Git, Figma, Visual Studio Code, Eclipse, Canva, Adobe Illustrator, WordPress, **GitHub**, Power BI, Azure AI Foundry, Wix, Notion, JIRA, Github Copilot, ChatGPT, Claude, GithubAgent HQ/Sparks/Skills, FastAPI

**Languages** | French – Upper-Intermediate, English – Full excellent proficiency, Spanish – Native

## INTERNSHIP EXPERIENCE

---

### Project Manager Intern

Digito | San Isidro, Lima, Peru

*Jun 2024 - Aug 2024*

- **Optimized project management** with Notion databases, boosting productivity and collaboration, which made a **faster project launch by 38%**
- Worked cross-functionally with sales, marketing, and admin teams, improving communication and gaining valuable insights into startup management, and improving communication skills with Scrum methodology.
- Gained **hands-on experience** in web development, **UI design**, **APIs**, and **Power BI** database creation.
- Coordinated as a **Project Coordinator**, organizing team meetings using Teams, tracking development progress with engineers, and ensuring sprint goals were met. Eased team collaboration and enhanced overall efficiency.

**Core Competencies:** Analytical Thinking, Problem-Solving, Time Management, Rapid Adaptability, Effective Interpersonal Communication, Agile/Scrum Methodologies, Love of Learning

### Marketing Intern

Sonny's Agency | Montreal, QC, Canada. USA and Ecuador remotely

*Aug 2025*

- Worked alongside the Founder of a rising marketing agency, helped with project management, designed and built websites with WordPress, and finally handled social media posts for our clients. Had a trilingual job experience.

## PROJECTS

---

**SageCoin** - Agentic Online Banking - Python, FastAPI, Pydantic, MongoDB,

*ConUHacks X Hackathon*

Google Gemini, pytest, React + TypeScript + Vite, Chrome Extension (MV3), Stripe APIs (backend route), CORS/REST

- Built an accessible context-aware “financial companion” that evaluates purchases using envelope balances (MongoDB) + budget analysis to output APPROVE/CAUTION/BLOCK with an impulse-risk score and UI adaptations (e.g., accessible fonts/ size). Implemented a FastAPI backend with modular routers/services (Sage evaluation, envelopes, wallet, transactions, cards, voice, Stripe payments) and Pydantic request/response schemas. Integrated Google Gemini to generate personalized, tone-aware explanations (supportive/reflective/firm).
- Built a Chrome Extension (Manifest v3) that runs on Amazon products, extracts item context, calls the Sage API, and shows the envelope impact inside the pop-up UI. Implemented wallet “load” transfers with balance checks.

**Pizza Ordering Agent** - Custom AI Agent - Azure AI Foundry

*OpenHack Hackathon by Microsoft at San Francisco*

- Built it in an OpenHack Hackathon by Microsoft at SFO. Used an Azure AI Foundry subscription provided by

Microsoft, an MCP server for the agent to have an extended knowledge, programmed in Python, and using the gpt-o4 AI model. A unique custom agent that promotes Peruvian food and funny slang, it can order pizza for a customer, depending on how hungry, how many people, and the location.

**Xpresso** - AI Video editor - Typescript (frontend), Python (backend), CSS, Gemini, MongoDB *McHacks13 Hackathon*

- Developed a web application that leverages Gemini LLM for video and audio recognition, which organizes clips with the correct voice-over audio and generates captions in various font styles. Collaborated with teammates using Git/GitHub, contributing to a fast-paced codebase with 44 commits across the project.

**Digito At A Glance** - Complete Notion Workspace

- One page for each head of Digito, a tech startup, such as the PM, Sales, Business, and Marketing Managers, helps them manage their own team and have everything at a glance. I showcased my **UI and management skills** with a pitch idea and good storytelling, based on the feedback of the founder. Used Excel **API** and **Zapier** for better automation.

## LEADERSHIP & VOLUNTEERING

---

**VP Marketing/ Director of Marketing**

Concordia Recreational Sports Club | Mtl, QC

*Sep 24 - Present*

- Grew Instagram by **57.5% YoY** and led multi-channel event marketing (social media, Canva, on-campus outreach), increasing participation and building an inclusive, wellness-focused student community.

SWE and Computer Science Society | Mtl, QC

*Jun 2025 - Present*

- Designed posts, where one of them reached **15.4k views**, increasing engagement in our social events. Actively learning from peers to strengthen computer science expertise.

**Core Competencies:** High Emotional Intelligence, Time Management, Leadership, Marketing with Social Media

**PM Marketing**

Project Instep by Enactus Concordia | Mtl, QC

- Led marketing for Project Instep, contributing to its recognition as **Runner-Up at the TD Entrepreneurship Challenge (Enactus Central Canada Regionals)** through strategic positioning, business model storytelling, and pitch execution.

**Canvassing Program (Door to Door)**

Youth Summit Magabook Ministry | Macon, GA, USA

*May 2023 - July 2023*

- Promoted and sold educational books (health, spirituality, history) through door-to-door outreach; recognized as a **top children's book seller** for strong communication and community impact.

**Core Competencies:** Ambitious, Resilient, Rapid Adaptability, Passion for uplifting others.

## PROFESSIONAL EXPERIENCE

---

**Line Server & Cashier / Prep Cook**

Pistachio / La Hueca | Griffintwon, Mtl, QC, Canada

*Apr 2025 - Aug 2025*

- Presented pastries and ice cream with care, handled checkout, and ensured a welcoming, **customer-focused** café experience. Cooked, prepared, and served dishes, maintaining quality through effective **teamwork** in FR and EN.

**IT and AV student worker**

Shenandoah Valley Academy | New Market, VA, USA

*Jan 2023 - May 2024*

- Provided **technical support**, troubleshooting, maintenance, and set up computers for students and faculty.
- Handled AV setup for presentations, sports events, etc. **Installed and maintained IT hardware** across campus.

**Service Hostess & Waitress**

Fontana Lounge Bar | Huancayo, Peru

*May 2022 - Aug 2022*

- Welcomed guests with the **most genuine smile**. **Managed** reservations, provided attentive table service, and **coordinated** events. Known for delivering **exceptional customer service** with a positive attitude.

**Core Competencies:** Customer Service, Hospitality Management, Teamwork & Collaboration, Event Coordination & Guest Experience, Passion for Uplifting Others

## INTERESTS AND MORE

---

**Passions/hobbies:** High school varsity volleyball MVP and volleyball club founder. Multi-instrumentalist (bass, guitar, piano, flute); toured Europe with school orchestra and founded my own band. **Citizenship:** Peruvian, also lived/studied in the US for 2 years. **References:** Professional references are available upon request.
